PROFESSIONAL SUMMARY

Biomedical Engineering postgraduate student at Heidelberg University with hands-on experience in clinical environments, including medical equipment troubleshooting, repair, and maintenance. Experienced with critical care devices including ventilators, patient monitors, and defibrillators. Interested in intensive care technologies, patient safety systems, and healthcare data management.

KEY SKILLS

Clinical Biomedical Engineering • Clinical Support • Medical Equipment Handling • Data Documentation & Analysis • SAP (Purchasing Module) • Equipment Calibration & Troubleshooting • MS Excel & Word • Team Collaboration • Problem Solving • Healthcare Systems

PROFESSIONAL EXPERIENCE

Aster Medcity Hospital — Biomedical Engineering Trainee (Feb 2025 – Jun 2025)

Performed troubleshooting, repair, and maintenance of critical medical equipment in clinical environments.

Worked extensively on patient monitors, ventilators, and defibrillators in real-time hospital settings.

Cyrix Healthcare Pvt. Ltd. — Procurement Assistant (Apr 2024 – Sep 2024)

Managed procurement processes using SAP (Purchasing Module) and maintained accurate purchase records.

DR KM Cherian Institute of Medical Sciences — Biomedical Engineer Intern (Jun 2022 – Jul 2022)

Assisted in equipment maintenance, preventive maintenance documentation, and emergency breakdown response.

PROJECT

Surgical Sponge Tracking System — Medical Device Hackathon (MEDHA)

EDUCATION

M.Sc. Biomedical Engineering — Heidelberg University, Germany (Oct 2025 – Present)

B.Tech Biomedical Engineering — Lovely Professional University, India (Graduated with 91%)

CERTIFICATIONS

Biomedical Visualization – Coursera
